

**Tournament Availability Form** --- The deadline for L5 and Master officials to submit their tournament availability is Friday, November 13. Please make sure everyone checks the listing of received availabilities to make sure we have in fact received their information. Partners should check their partner .... make sure this information has been submitted correctly.

Reminders for positioning (2-person crew) **when fouls are called and freethrows are being shot:**

If the lead official in a 2 person system calls the foul, he/she will switch with the trail (table side) if any free throws will be attempted following the foul.

If the trail official in a 2 person system calls the foul, he/she will remain the trail (tableside) if any free throws will be attempted following the foul.

Reminders for positioning (2-person crew) **when fouls are called and freethrows ARE NOT being shot:**

If the lead official in a 2 person system calls a foul, he or she will switch with the trail official (perhaps table side or opposite table) if no free throws are attempted following the foul. (just like in past years)

If the trail official in a 2 person system calls the foul, he/she will switch with lead (tableside or opposite table) if no free throws will be attempted following the foul. (just like in past years)

Non-shooting fouls – same as it has been. Both officials switch.

## **TECHNICAL FOULS**

Regarding technical fouls: same as a foul involving free throws. To avoid a confrontational situation, the calling official would move to the lead position. Every free throw attempted should have the trail on the tableside of the court. If it's confrontational, that official goes to the lead position.
